SUMMARY

Growth-oriented computer science student proficient in Python and C++, backend frameworks like FastAPI and Express, databases, version control and testing frameworks such as Pytest and unittest.

EDUCATION

Vellore Institute of Technology, Chennai

BTech in Computer Science

CGPA: 8.46/10 (Till 5th Sem) — Aug 2023 - Present

SKILLS

Programming Languages	Python, C++, C, Javascript
Backend	FastAPI, Express
Databases	MySQL, PostgreSQL, MongoDB, Supabase
Machine Learning	ML algorithms, Tensorflow and PyTorch, Data Preprocessing
DevOps & Cloud	Docker, Nginx, Vercel
Version Control	Git, Github

EXPERIENCE

AI/ML Immersion Program Participant — National University of Singapore — *Dec 2025*
github.com/deepfake-model 

Contributed to a deepfake detection project by training, tuning, and validating a Vision Transformer (ViT) model, achieving 79% classification accuracy.

PROJECTS

Google OAuth Sign-In Tracker — FastAPI — [application](#) 

- FastAPI application that tracks the per-user sign-in frequency.
- Added security using session cookies, CORS allowance only for one origin, and Google OAuth 2.0 for secure sign-in.
- Maintained code robustness by adding unit tests using Pytest framework and deployed it on Vercel and maintaining production deployment for error handling.

Mini Jira – Full-Stack Project Management System — github.com/mini-jira 

- Built a full-stack project management system using **Node.js**, **Express.js**, and **MongoDB** following MVC architecture, exposing **6+ RESTful endpoints** validated end-to-end with Postman.
- Implemented **JWT-based authentication middleware** to enforce protected API access and stateless session handling across all routes.
- Enforced code quality via **pre-commit hooks** integrating unit, integration, and mutation testing — maintaining stable coverage throughout the development lifecycle.

CERTIFICATIONS

Generative AI using IBM WatsonX – IBM

ACHIEVEMENTS

- **National Semi-Finalist in 2025 Flipkart GRID 7.0** - Showcased problem solving skills in data structures and real-life problems at national level.
